

FOR IMMEDIATE RELEASE

Metaformix Partners with WebKMS

Delta, BC - 01-Feb-2010

Metaformix Information Systems (Delta, BC) and WebKMS (Toronto) have partnered to provide SharePoint services in western Canada.

With deep experience in document and content management systems consulting, Metaformix will provide local project management and requirements definition services for clients deploying SharePoint applications. WebKMS, a Toronto-based company specializing in SharePoint customization, is highly experienced in the development of applications built on SharePoint to provide simple-to-use access to corporate information through custom portals.

John Barker, president of Metaformix states: "We are excited to partner with WebKMS, and view this as a significant opportunity to bring WebKMS's expert SharePoint development skills into the BC and Alberta regions."
