FOR IMMEDIATE RELEASE

SoftChoice Now a Metaformix Reseller

Delta, BC - 23 June 2006

Metaformix is pleased to announce that it has signed SoftChoice (<http://www.softchoice.ca>) as a reseller of TopLeaf and XMLComposer.

"We are extremely pleased to welcome SoftChoice as a reseller of our products in Canada," said John Barker, president of Metaformix Information Systems.

"Our products are quite niche-market oriented, and we believe that the marketing reach of SoftChoice will help boost our software sales", he went on to say.

Metaformix is the North American VAR for TopLeaf, from Turn-Key systems, and the developer of XMLComposer, a TopLeaf server add-on.

Metaformix provides TopLeaf support, training and professional services in North America, and develops its own TopLeaf related product technologies.
